

VISTA FIXED FOCAL

RANGE OF LENSES

IDEAL FOR APPLICATIONS SUCH AS:

- Shops
- Warehouses
- Offices
- Commercial premises
- Both security and industrial applications

MAIN FEATURES:

- High quality glass optics
- Colour corrected lens
- Wide choice of AI, DD and MI options

FIXED FOCAL LENSES

Vista fixed focal lenses are available in a wide range of options spanning Auto Iris (AI), Direct Drive (DD) and Manual Iris (MI) models.

Suitable for a wide range of security and industrial applications, Vista fixed focal lenses benefit from being manufactured with colour corrected glass optics, ensuring the best possible quality of image.

Naturally, all direct drive variants are Panasonic plugged and the casing design makes focussing and set-up of the lens extremely simple.

THE UK'S PREMIER CCTV BRAND
