

# A & E Specifications

## **PVM32**

### **LCD**

The monitor will have a 32" screen size producing a resolution of 1366 X 768 pixels

The monitor shall have an On Screen Display menu system.

The monitor shall have a Thin Film Transistor screen.

The monitor shall have a brightness level of 500cd/m2.

The monitor shall have a response time of 8milli seconds.

The monitor shall have a contrast ratio of 1200:1.

The monitor shall have a viewing Angle of 178 / 178 degrees.

### **VIDEO**

The monitor will be dual standard catering for connection to NTSC or PAL video signals.

The monitor will have an automatic 75-ohm termination.

The monitor shall have an internal high-resolution colour camera with a 4 ~ 9mm Direct Drive Lens with a loop-through connector.

The monitor shall have 2 x external camera inputs with loop-through.

The monitor shall have in-built motion detection.

The monitor shall have a SVHS (Y/C) input connection.

The monitor shall have 2 x line level inputs and a line level output and 2 x 5W stereo speakers.

### **MONITOR**

The monitor will have Power on/off, power indicator and OSD menu navigation controls on the front panel and remote control.

The monitor will have OSD menus to adjust brightness, contrast, colour, tint, sharpness and volume.

The monitor shall have an emergency message facility instigated over the network.

The monitor shall have a 40GB built-in HDD

The monitor shall have a built-in USB 2.0 driver for upgrading.

The monitor shall have a built-in USB 2.0 driver for loading media files.

The monitor shall have a component connector via a 3-terminal RCA, 1080i, 720p, 480p, 480i.

The monitor shall have 1 x 15 Pin D-SUB analogue RGB & H/V Sync.

# A & E Specifications

The monitor shall have 1 x DVI-I PC input, 1366 x 768 @ 75Hz Max.

The monitor shall have 1 x RCA jack audio input.

The monitor shall have 1 x SVHS (Y/C) video input.

The monitor can be powered by a supply from 100~240 volts AC at 50 or 60Hz.

The power consumption of the monitor will not exceed 160watts.

The monitor shall measure 592mm x 796.5mm x 108.25mm (W x H x D)

The monitor shall weigh 22.5Kg.

The monitor shall be metal cased in silver.

The monitor shall be a Vista **PVM32**
